U.S. EXPORT SALES

● Outstanding Export Sales
(Unshipped Balances)
On April 27, 1975

● Export shipments in
Current Marketing Year

● Daily Sales reported
April 28 - May 6, 1975

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

EXPORT SALES REPORT

Comments on release of May 8, 1975 (based on reports from exporters during the week ending April 27, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1974/75 increased by 266,900 metric tons (MT). Commitments to Chile and Japan rose by 81,400 MT and 74,800 MT, respectively, while minor increases to several African countries totaled 58,700 MT. Increased commitments of 20,300 MT to India and 29,100 MT to the European Community (EC) were also registered. The first sale to the Soviet Union for 1975/76 shipment was registered this week for 72,000 MT.

Feedgrains: The apparent export commitment for 1974/75 dropped by 1,305,000 MT, bringing the total down to 37.6 million MT. Corn commitments fell by 1,348,700 MT on the basis of major changes in several European and Asian countries. Commitments to the EC declined by 570,000 MT, primarily on the basis of lower commitments to West Germany and the Netherlands of 293,800 MT and 224,300 MT, respectively. Commitments also fell to Poland (279,400 MT), Spain (185,400 MT), the Soviet Union (196,800 MT), the Republic of Korea (171,000 MT), and unknown destinations (239,200 MT). These decreases were only partially offset by higher commitments to Greece of 153,200 MT and to East Germany of 49,100 MT. Sorghum commitments rose by 60,000 MT based on small increases to several destinations.

Rice: The apparent export commitment for 1974/75 increased by 4,300 MT with only a few minor changes in commitments to some destinations.

Soybeans: The apparent export commitment for 1974/75 declined by 454,000 MT, one of the sharpest drops of the year. As expected, large cancellations were reported for the EC and Japan. Reported export sales to unknown destinations declined by 178,000 MT for 1974/75 and 50,000 MT for 1975/76. If a general economic recovery begins this summer, Japanese imports of soybeans in 1975 are expected to reach 3.4 million MT, an increase of 5% from the 3-year low set in 1974.

Soybean Meal: The apparent export commitment declined by only 53,200 MT, as exports fell to nearly 76,000 MT. The EC and East European destinations (primarily Poland) cancelled some previous purchases. Exports to East Germany of 11,400 MT brought the season's total to 103,500 MT with no outstanding sales reported remaining. U.S. exports to East Germany have reached record levels as West German shipments have declined as follows: 1971/72, 605,000 MT; 1972/73, 448,400 MT; 1973/74, 227,900 MT. West German exports to East Germany in the Oct./Jan. 1975 period of 65,000 MT are 10,000 MT behind the rate of the last season and help to explain the increase in direct U.S. shipments.

Soybean Oil/Cottonseed Oil: Reported soybean oil exports increased sharply from 300 MT in the previous week to 13,800 MT, including shipments to Yugoslavia (10,000 MT), Japan (1,000 MT), and Panama (2,500 MT). Cottonseed oil exports increased to 14,200 MT including 12,000 MT to Egypt. Pakistan, a major market for U.S. vegetable oils, has increased its permissible use of palm oil in (vegetable) ghee from 15% to 50%.

Cotton: Cumulative 1974/75 exports neared 2.6 million running bales (RB). While shipments to the People's Republic of China failed to maintain the level of recent weeks, new sales to Japan and Hong Kong paced strengthening purchases. Japanese interest was mostly in 1974/75 delivery, while Hong Kong buyers showed interest in both current year and 1975/76 delivery. New sales for 1974/75 shipment were double the amount of cancellations and total commitments neared 4.8 million RB. Outstanding sales for 1975/76 rose by 58,000 RB, some of which offsets part of the 1974/75 cancellations through negotiated delays in shipping dates. The first sale to the Netherlands for 1975/76 delivery was registered.

1/ Includes contract tolerances adjustments 2/ Includes both new purchases from foreign sellers and cancellations of such purchases 3/ Includes quantities deferred to different marketing year 4/ Does not include exports for exporter's own account

The above table includes for the first time data on both basis price and fixed price contracts for corn and soybean meal for the current week ending April 27, 1975.

The same data for the previous week ending April 20, 1975 is also shown. Data may not add due to rounding.

As the above data indicate, U.S. exporters (sellers) are engaged in many types of transactions. One of the most difficult to understand is one in which the exporter purchases from a foreign seller. Such transactions have the same negative effect on outstanding sales data as do contract cancellations, or buy-backs, between the parties to a contract. The difference is that a purchase from a foreign seller is a separate transaction; it is not involved in a cancellation or buy-back of a particular sale previously made. It is a new contract between other parties, between the same parties for different delivery periods, or similar transactions.
